

Online Tee Time Announcement – 2022

Attention Town of Colonie Golfers!!!!

The Town of Colonie is excited to announce the ability to schedule tee times online beginning on Tuesday, June 21st. We believe this will be a more customer-focused, efficient method to view and schedule your tee time. And, the process is easy.

For those golfers who have already visited the golf course this year and registered their account, the online site will recognize your email and you will be prompted to create a password. Once completed, you will be ready to reserve tee times online. For those who have not registered at the golf course this year, you may create your account online by entering the information as requested. Those golfers who have not registered through the golf shop, will be defaulted to non-resident status. If you are a Colonie resident, this can be adjusted by bringing proof of residency to the golf shop when you come to the course.

When securing your tee time, you can add other players to your group if they have an existing account, or you can reserve up to 4 players (one foursome) under your name. Once you have a tee time confirmation, the tee time will appear on our tee sheet in the golf shop immediately. You can also cancel or adjust your tee time online. As in the past, you may also continue to call the golf shop for tee times at 518-374-4181. The Online Tee time Procedure is as follows:

- Visit the Colonie Town Golf Course Website at <https://www.colonie.org/departments/parksandrec/golfcourse/>
- Click on the “Book a Tee Time” tab at the top of the page. This tab will be available beginning June 21st and will take you to the web page for booking tee times here at Colonie Town Golf Course.
- Click on the date you are looking for and the available tee times will appear for that date.
- To reserve a tee time, click on the sign in tab at the top right of the screen which will allow you to sign in. **If it is your first visit to the site and you have registered in the golf shop already, just enter your email and click on Password Recovery which will prompt you to create a password.** Once that is done, you will be all set with an online account and you can reserve a tee time. **If you have not previously registered in the pro shop, click on “sign up”, answer a few questions and you will have created your account.**
- Click on the tee time you would like to reserve and you will be prompted to enter the number of players you would like to have in your group. You can also provide the players names if they have an account already. This is preferred as it will speed up the check in process at the course when you arrive.
- Once the tee time is reserved, you will receive a confirmation of the tee time via email.

We look forward to adding this golfer friendly, efficient tee time process to our operation here at the Town of Colonie Golf Course. If you have any questions on this procedure, please feel free to call the golf shop at 518-374-4181.
