

COVID-19 Home Test Kits

The Town of Colonie successfully handed out its recent allocation of COVID-19 Home Test kits today at the Colonie Police Department. A drive through site was established at the police department and with the help of the police officers, more than 1,000 kits were distributed to residents within three hours.

Colonie Supervisor Peter G. Crummey stated, “We are going to continue to work with State and County officials to deploy any of our resources needed to increase testing and vaccination sites for the community. The distribution of home test kits is another way we are working to increase testing capability for our residents to help them identify COVID-19 and receive the necessary care.”

Supervisor Crummey has directed his emergency management team to be out in front on this issue to ensure the Town of Colonie residents receive the assistance needed. We encourage all residents of the Town of Colonie to sign up for Colonie’s Stay Connected messaging system. You can sign up by visiting our website at www.colonie.org.
